PCO's and Associations are obliged to follow the rules and protocols strictly, as they have been issued by the government officially

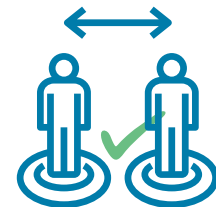

What are PCOs and venue partners asking attendees to provide/do?

Full vaccination OR recovery certificate (less than 3 months) are required to enter events.

Masks must be worn inside. Mandatory for all, with the exception of speakers during their speech on the condition that the podium has protective glass (plexiglass), which is cleaned and sanitized between the speakers.

Capacity based on the venue, maintaining the appropriate distancing.

No tests at the entrance are required as vaccination is.

Temperature checks may be offered at registration desks.

If a person demonstrates symptoms, that person needs to be isolated in a dedicated room. It is recommended for the person to undergo an antigen-test, which must be available onsite.
